Dear Sir/Madam,

RE: GUIDELINES FOR APPLICATIONS TO CONDUCT CLINICAL TRIALS IN KENYA-ECCT PPB

The Pharmacy and Poisons Board recognizes the importance of research and development in the attainment of national health, social and economic goals. As part of Pharmacy and Poisons Board's effort to facilitate clinical research and to be at par with other drug regulatory authorities, the Expert Committee on Clinical Trial (ECCT) has developed guidelines to assist clinicians, researchers and scientists to be familiar with the procedures required for the conduct of drug-related clinical trials in the country.

In order to get as wide an opinion as possible before the Implementation of this guideline, we are kindly requesting you to go through the attached draft guideline and send us your comments **by close of day Wednesday 30th June 2010**. Your input will go a long way in coming up with a document that will be of great benefit to all those who are currently carrying out clinical trials or will carry out any clinical trial in the country in the near future.

You can send us your comments through the above address or electronically to pv@pharmacyboardkenya.org

Thank you and looking forward to prompt response from you.

Yours sincerely,

Dr. F. M. Siyoi

Deputy Registrar
